

Taubensee

Steel & Wire Company

January 1st, 2026

To our Valued Customer,

Subject: Toxic Substance Control Act (TSCA) and Perfluoroalkyl and Polyfluoroalkyl substances (PFAs) Statement

This letter serves to provide information on the US Environmental Protection Agency's (EPA) Toxic Substances Control Act (TSCA) regarding Perfluoroalkyl and Polyfluoroalkyl substances (PFAs) as it applies to Taubensee Steel & Wire's (TSW) hot rolled and cold finished bar and wire products.

TSW does not use PFAS as an intentionally added ingredient, as a processing aid at any point during manufacturing or production processes, as a known or suspected contaminant, or in the packaging used to transport raw materials to our facilities. This information is provided to the best of Taubensee Steel & Wire's knowledge and is based on our supplier's material certifications and Safety Data Sheets.

Please see attached page for formal declaration.

Sincerely,

Taubensee Steel & Wire Company

DECLARATION: PFAS

Per- and polyfluoroalkyl substances (PFAS), sometimes called "forever chemicals," is a group of thousands of substances widely used in many industries. Due to growing awareness of health and environmental concerns, PFAS are facing increasing scrutiny worldwide. In-force and proposed measures set restrictions or requirements on PFAS use in some jurisdictions, and due diligence may be necessary to meet legal obligations, ESG commitments, and/or business requirements.

To whom it may concern,

☒ We hereby send you information related to PFAS; this communication applies to all products sold or otherwise placed on the market by **Taubensee Steel & Wire** prior to the signature date of this declaration.

OR ☐ We hereby send you information related to PFAS; this communication applies to all products sold or otherwise provided to **[Requesting Client]** prior to the signature date of this declaration.

If no products contain any PFAS chemicals, this option must be selected:

☒ Checking this box certifies that none of the products referenced above contain any PFAS substances.

OR, if any products contain any PFAS chemicals, this table must be completed:

Product(s)	Substance Name or CAS Number	Concentration (%)	Where in the product is the substance found?
