according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012

Date of issue: 08/14/2015

Revision date: 05/04/2016 Version: 1.1

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier		
Product name	: Cold Drawn Steel Wire, Bars, and Hot Rolled Wire Rods and Bars	
Product code	: Not available	
1.2. Relevant identified uses of the	e substance or mixture and uses advised against	
Use of the substance/mixture	: Cold finished wire and bars for fabrication of metal alloy products	
1.3. Details of the supplier of the safety data sheet		
Taubensee Steel & Wire Co. 600 Diens Drive Wheeling, IL 60090 - USA T 847-459-5100		
1.4. Emergency telephone number		
Emergency number	: CHEMTREC 1 (800) 424-9300	

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The classification given below pertains to the product during processing:

GHS-US classification

Combustible Dust Skin Sensitization 1 Carcinogenicity 2 Reproductive Toxicity 1A (developmental) Reproductive Toxicity 2 (fertility) Specific Target Organ Toxicity After Repeated Exposure 1

2.2. Label elements		
GHS-US labelling		
Hazard pictograms (GHS-US)		
Signal word (GHS-US)	GHS07 GHS08 : Danger	
Hazard statements (GHS-US)	 May form combustible dust concentrations in air. May cause an allergic skin reaction. Suspected of causing cancer. May damage the unborn child. Suspected of damaging fertility. Causes damage to organs through prolonged or repeated exposure. 	
Precautionary statements (GHS-US)	: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. If exposed or concerned: Get medical advice/attention. If on skin: Wash with plenty of water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical advice/attention. Store locked up. Dispose of contents/container in	

accordance with local/regional/national/international regulations.

2.3. Other hazards

No additional information available.

2.4. Unknown acute toxicity (GHS US)

Not applicable.

SECTION 4: First aid measures	
4.1. Description of first aid measures	
First-aid measures after inhalation	: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
First-aid measures after skin contact	: In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Call a physician if irritation develops and persists. Burns caused by molten material must be treated clinically.
First-aid measures after eye contact	: In case of contact, immediately flush eyes with plenty of water. Remove contact lenses, if worn. If irritation persists, get medical attention. Burns caused by molten material must be treated clinically.
First-aid measures after ingestion	: If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.
4.2. Most important symptoms and effect	ts, both acute and delayed
Symptoms/injuries after inhalation	: May cause respiratory tract irritation. Inhalation of dusts and fumes can cause metal fume fever. Symptoms can include a metallic or sweet taste in the mouth, sweating, shivering, headache, throat irritation, fever, chills, thirstiness, muscle aches, nausea, vomiting, weakness, fatigue, and shortness of breath.
Symptoms/injuries after skin contact	: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin. May cause sensitization by skin contact. Risk of thermal burns on contact with molten product.
Symptoms/injuries after eye contact	: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling. Molten material can cause severe burns.
Symptoms/injuries after ingestion	: May be harmful if swallowed. May cause stomach distress, nausea or vomiting.
4.3. Indication of any immediate medical	attention and special treatment needed
Symptoms may not appear immediately. In case of a	accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

SECTION 5: Firefighting measures		
5.1. Extinguishing media		
Suitable extinguishing media	: Treat for surrounding material.	
Unsuitable extinguishing media	: Do not use water when molten metals are present.	
5.2. Special hazards arising from the substance or mixture		
Fire hazard	: Combustible dust. Products of combustion may include, and are not limited to: oxides of carbon, metallic oxides.	

Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012

5.3. Advice for firefighte	rs
Protection during firefighting	: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA). Avoid breathing dust. Avoid generating dust. Dust may form explosive mixture in air.
SECTION 6: Accidental	release measures
6.1. Personal precaution	is, protective equipment and emergency procedures
General measures	: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (ie, clearing dust surfaces with compressed air).
6.2. Methods and materi	al for containment and cleaning up
For containment	: Contain spill, then place in a suitable container. Minimize dust generation. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).

Methods for cleaning up : Vacuum or sweep material and place in a disposal container. Provide ventilation.

6.3. Reference to other sections

See section 8 for further information on protective clothing and equipment and section 13 for advice on waste disposal.

SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling	: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid contact with skin and eyes. Do not breathe dust/fume/gas/mist/vapors/spray. Do not swallow. Handle and open container with care. When using do not eat, drink or smoke. Good housekeeping is important to prevent accumulation of dust. The use of compressed air for cleaning clothing, equipment, etc, is not recommended. Use only in well-ventilated areas. Cadmium is subject to the standards 29 CFR 1910.1027 and 1926.1127 which may contain specific requirements for handling including protective equipment, regulated areas, monitoring and medical surveillance. The employer should review the standard and assure compliance with applicable requirements.
Hygiene measures	: Launder contaminated clothing before reuse. Wash hands before eating, drinking, or smoking.
7.2. Conditions for safe storage, including	any incompatibilities
Storage conditions	: Keep out of the reach of children. Keep container tightly closed.
7.3. Specific end use(s)	

7.3. Specific end Not available.

8.2. Exposure controls	
Appropriate engineering controls	: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.
Hand protection	: Wear chemically resistant protective gloves.
Eye protection	: Safety glasses or goggles are recommended when using product.
Skin and body protection	: Wear suitable protective clothing.
Respiratory protection	: In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Environmental exposure controls	: Maintain levels below Community environmental protection thresholds.
Other information	: Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefully before eating or smoking. Handle according to established industrial hygiene and safety practices.

SECTION 9: Physical and chemic 9.1. Information on basic physical at
